MARINE CORPS TACK-ON

06 April 09

*Mr. Marchetti
Head, LPD₁*

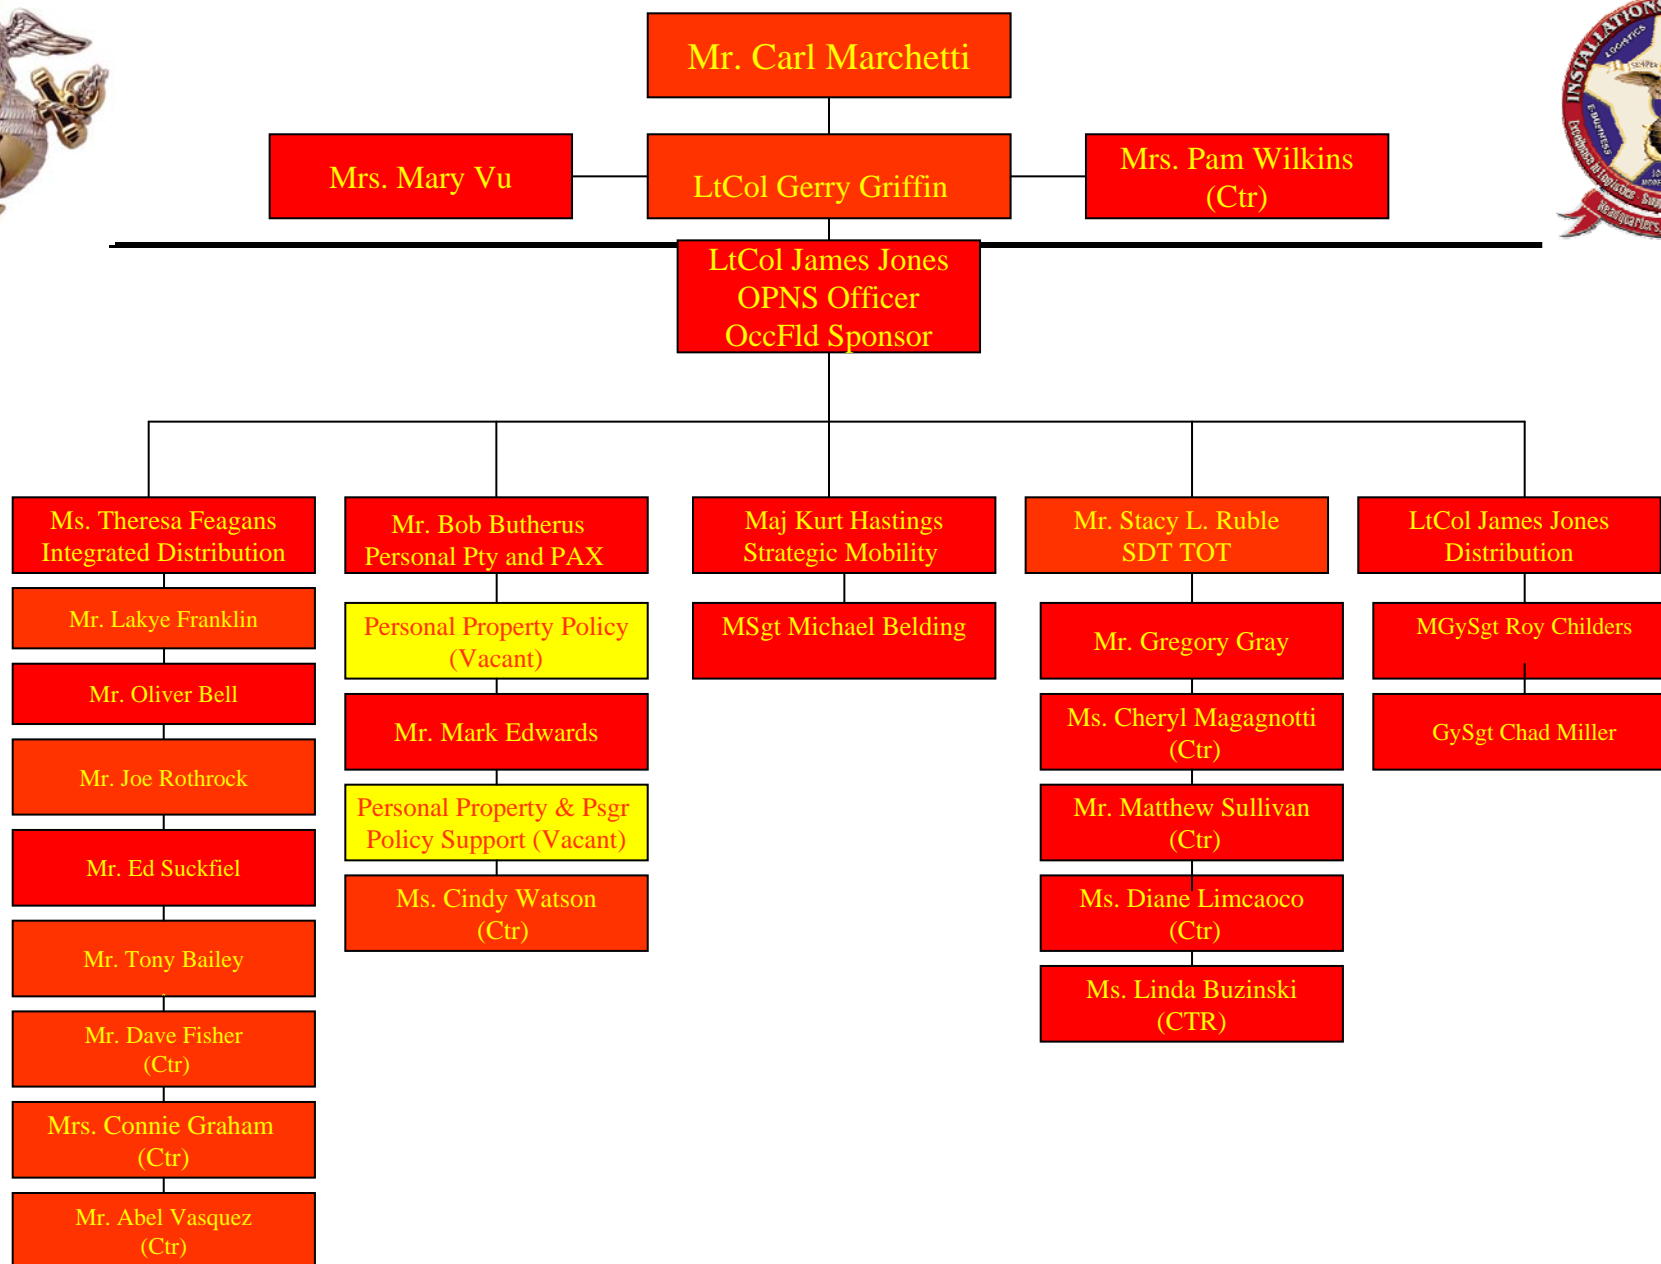

Current Environment

LPD ORGANIZATIONAL STRUCTURE

Current Environment

- **DISTRIBUTION DIGEST**
 - <http://www.marines.mil/units/hqmc/logistics/Pages/LPD-5.aspx>
- **DEFENSE PERSONAL PROPERTY SYSTEM**
 - Additional information at SDDC breakout
 - Lessons learned from Camp Lejeune
- **ARMS, AMMUNITION AND EXPLOSIVES INTER-AGENCY COORDINATION GROUP**
 - OSD sponsored subgroup consisting of both permanent and Ad Hoc members from OSD, the Military Services, Joint Staff, USTRANSCOM, DLA, DCMA and Homeland Security. The mission of the ICG is to work collectively to resolve issues of common interest regarding Arms, Ammunition and Explosives and Hazardous Materials end to end.
- **TRANSPORTATION TRACKING NUMBER**
 - This was a tough fight at times due to the high level of support the TTN has from the other services. Staying firm in our service position we ensured that the wording put into the Joint Requirements Oversight Committee Memorandum (JROCM) called for proper evaluation and testing prior to the services being required to implement and utilize TTN. The JROCM was signed during Feb 09 by the Vice Chairman of the Joint Chiefs of Staff and implementation should begin occurring between FY-10 to FY-12.

Current Environment

- **DEFENSE PACKAGING POLICY GROUP**
 - A permanent forum established to develop and recommend changes to policy, guidance, and standardization of packaging throughout the Military Services and the DLA.
- **CONTAINER MULTI-SERVICE TACTICS, TECHNIQUES AND PROCEDURES WRITING GROUP**
 - A Joint Intermodal Working Group initiative to set up small group to review and update specific sections from Joint pub 4-01.7. as it is being merged into the next revision of Joint Pub 4-09, Global distribution. This document is being developed to be used as a Multi-service Tactics, Techniques, and Procedures (MTTP) pub for use of Intermodal containers in joint operations.
- **STRATEGIC MOBILITY**
